We take pleasure in inviting you to
the next XIPS Conference,
The 8th in a series of meetings on X-Ray
Investigation of Polymer Structure.

XIPS'2010

Is scheduled for the beginning of December, 2010

The conference covers all topics concerning polymers structure investigations with X-rays, including various fields such as X-ray crystallography, wide angle (WAXS) and small angle (SAXS) X-ray scattering as well as novel methods, and instrumentation related to these methods. Scientists using the neutron scattering method (SANS) are also welcome. The previous conference XIPS'07, organised in Cracow, was attended by 75 distinguished scientists from European universities and scientific institutions.

It is a great pleasure to extend to you our invitation to participate in this Conference

For further information please contact:

The Chairman of the Conference

Dr hab. Jarosław Janicki, prof. ATH
University of Bielsko- Biala
Faculty of Materials and Environmental Sciences
Institute of Textile Engineering and Polymer Materials
ul. Willowa 2, 43-309 Bielsko-Biala
tel. +48 33 8279 114, fax. +48 33 8279 100
