- 7 Abstracts in Polish

RESEARCH AND DEVELOPMENT. ELECTROSTATIC AND ELECTROMAGNETIC FIELDS - NEW MATERIALS AND TECHNOLOGIES

- 13 **Intelligent Materials for Intelligent Textiles**
A. Boczkowska, M. Leonowicz
- 18 **Methods for Evaluating the Shielding Effectiveness of Textiles**
T. W. Więckowski, J. M. Janukiewicz
- 23 **Premises for Practical Evaluation of the Anti-electrostatic Properties of Protective Garments**
J. M. Kowalski, M. Wróblewska
- 29 **Research and Development in the Field of Special Protective Clothing**
Ch. Vogel, H. Beier, H. Erth
- 35 **Back Corona in Fabrics**
R. Kacprzyk, W. Miśta
- 39 **Effect of Air Humidity on Charge Decay and Lifetime of PP Electret Nonwovens**
E. Motyl, B. Łowkis
- NEW PRODUCTS**
- 43 **Textronics – Electrical and Electronic Textiles. Sensors for Breathing Frequency Measurement**
J. Zięba, M. Frydrysiak
- 49 **Magnetic Textile Elements**
M. Rubacha, J. Zięba
- 54 **Textronic Textile Product**
M. Michalak, I. Krucińska, B. Surma
- 60 **High Frequency Dielectric Permittivity of Nonwovens**
S. Hausman, Ł. Januskiewicz, M. Michalak, T. Kacprzak, I. Krucińska
- 64 **Nonwovens With Implanted Split Rings For Barriers Against Electromagnetic Radiation**
M. Michalak, R. Brazis, V. Kazakevicius, J. Bilka, I. Krucińska
- 69 **Influence of Structural Parameters on Electrostatic Properties of Wale Knitted Fabrics**
A. Pinar, L. Michalak
- 75 **Application of Cathode Sputtering for Obtaining Ultra-Thin Metallic Coatings on Textile Products**
K. Bula, J. Koprońska, J. Janukiewicz

RESEARCH AND DEVELOPMENT

- 80 **Blended Rotor-Spun Yarns with a High Proportion of Flax**
W. Cierpucha, Z. Czaplicki, J. Mańkowski, J. Kołodziej, S. Zaręba, J. Szporek
- 84 **Relationships between Yarn Diameter / Diameter Variation and Strength**
M. Kılıç, A. Okur
- 88 **Applying Notions and Methods of Fuzzy Set Theory to Analysis of Microstructure of Cotton Fracture**
E. Sarna, A. Wlochowicz, M. Sarna
- 92 **PP/PET/PBT Blend Fibres: Phase Structure and Mechanical Properties**
A. Marcinčin, M. Hricová, E. Körmendyová, A. Ujhelyiová, J. Broda, J. Janicki
- 98 **Investigation of the Thermal Insulation Properties of Multilayer Textiles**
M. Matusiak
- 103 **Estimation of the Overall Heat-Transfer Coefficient Through a Textile Layer**
S. Ziegler, J. Kucharska-Kot
- 107 **Establishing the Course and Wale Density of Knitted Fabrics by a Computer Analysis of 2D Images**
B. Wilbik-Hałgas, R. Danych, B. Więcek, K. Kowalski
- 111 **Modelling and Designing of Knitted Products Used in Compressive Therapy**
E. Maklewska, A. Nawrocki, J. Ledwoń, K. Kowalski
- 114 **Application of Fenton's Reagent in Detergent Separation in Highly Concentrated Water Solutions**
J. Perkowski, W. Józwiak, L. Kos, P. Stajszczyk
- NEW PRODUCTS**
- 120 **Health Properties Of Polyacrylonitrile Blankets Made with the Anti-Microbial Fibre Amicor Plus**
N. Sedelnik
- 125 **Multi-Barrier Electromagnetic Tensioner for Control of Yarn Tension in Processing**
W. Podsiadlik, J. Wojtysiak
- 130 **Information for Authors. Advertising and Subscription Information**
